AL BARAKAH DATES™

Before: Challenges and Opportunities

- Al Barakah Dates began in 1988 as a foodstuff import/export facility. Today, they are a market leader in packaging and processing dates and dates ingredients
- Al Barakah Dates exports their products to over 75 countries and needed a superior ERP system to overlook all operations with ease and transparency and integrate all processes.
- Al Barakah Dates also needed a system that gives them full operational control to abide by international food standards and requirements.

Why SAP and Seidor Procons

- Seidor Procons has a wide experience in implementing SAP Business One
- SAP Business One offers industry added features that fit our industry needs.
- SAP Business One has an improved user experience and reporting systems.

After: Value-Driven Results

- Greater control over inventories
- Level of productivity and efficiency has improved in a short period of time
- The ability to access critical accurate information in a timely matter has reduced human errors and improved decision making.
- A user-friendly intuitive interface that saved time on training and making the transition .

“The combination of an impeccable ERP SAP Business One with an experienced team to implement it is the key for the success of this project and its fast results.”
